VERSIDE HOMESTEAD ASSOCIATION

association f whose organization we gave unt a few days since is now ready to dis shares. As it is with one exception the nd Homestead Association the pioneer or tion of that kind in the city, it may be ough to ... to what are its purposes and anner in which it is proposed to conduct its ions. The purposes of these Homestead ations are not at all speculative in the or sense of the word. They are dependent profits of their operations upon the be an dvance in the value of real estate upon the co-operation of many individuals reholders—and the advance on values of all nding lands by reason of the expansion of ation and demand for ... outside of but near, the city. The Riverside Homestead iation has a fraction over one hundred and y acres of land situated just south of lyn on the east side of the river, the near undary line being about one mile from the landing at East Portland. The tract lies strip along the Willamette river half a mile g h and another strip along the Oregon and rnia railroad half a mile in length the two being connected near the middle by two of blocks (with a street between them), the forming a figure not unlike the letter H divided into 71 blocks 200 feet square (with running at right angles) and 80 fraction s, along the river front. The shares num 00 worth $60 per share. It will be seen that re thus represents nearly a lot with an undi interest in the 80 fractional lots. The 80 frac shares are to be sold ... at the proper time e benefit of the Association shareholders g in for the proceeds in proportion to the ber of shares held. When all shares are and the Association shall deter to do it the choice of lots and blocks be put up at auction to the highest r, the proceeds of such sales after deducting riginal price of shares or lots to be divided y among the whole number of shares. if a person wants a particular lot or block, s willing to pay $150 or $300 premium (more s as the case may be) he pays it and takes lot or block as his individual property the um being divided among the whole number hareholders. It will be seen, therefore that thing is co-operative, and all interests mu No man can make a dollar out of it with lso making a dollar for every other equal holder. There is no chance for loss unless property, by some chance should depreciate below the first actual cost. Whether this is to happen in the case of this particular of land must be judged by each for himself; considering the steady and unprecedentd ad on real estate in this city and neighbor , and at East Portland and vicinity for the year or two, it seems hardly possible for es to go back.

the Riverside Association all proper precau ... to have been taken to guard against opoly of shares. No person is allowed to more than the number of shares representing blocks, or twenty-four lots, and so to de inising the operations of the Association are ... ted in the same manner. The buyers of es may pay down $60 per share which will mpt them from all assessments or they may $15 quarterly with an assessment of $3 per e, payable with the first installment, being e in this latter case to another (and only one r) assessment of $3 per share. Upon the ment of the shares in full, with the assessments bove, the holder is entitled to his certificate this proportion of all the profits accrued from ources. No officer of the Association receives pay for services except the Secretary who $25 per month, so it will be seen that the nses must be light.

hat part of the tract lying along the river is gh plateau, nearly level about 60 to 90 feet e the water. There is no part of the front of blocks but commands a splendid view of land and the river for miles up and down m. That part of the tract lying along the road is, every foot of it of the richest loam and adapted to gardening purposes. A beau little stream of pure water runs through ost the entire length of this wing of the tract, rding the means of irrigation and power suf nt to supply pure water to every part of the le tract. There is not a waste or fractional in the entire tract. Under all these advan s, it would seem impossible that there should ny chance of loss to shareholders. Within a each shareholder if he choose may get a ect title to as many lots as his shares may esent, or he may continue his interest, undi d with the Association while the organiza may exist.—*Oregonian*

[DISPATCHES TO THE OREGONIAN]

EASTERN DATES TO DECEMBER 7.

The War in France

NEW YORK, Dec 5.—The *Tribune's* correspondent telegraphs from Versailles Dec 2d that the battle of the ... inst. was as hard as any fought during the whole war.

In the sortie between the Seine and the Marne the French had an overwhelming force and four whole divisions were employed. No efforts could wholly drive them back.

The following is the *Herald's* cable dispatch:

TOURS, Dec 5.—The results of the fighting before Orleans was unfavorable. The left wing of the army of the Loire was doubled up and the Prussians reached the railroad between Orleans and Tours at Chapell near Orleans on Saturday afternoon.

HAVRE, Dec 6, 6 P M.—All communications with the interior of France are severed.

A *Times* correspondent writes from Versailles on the 1st instant that the German loss in sorties at Stearns was inconsiderable.

At Epernay the French made a rush at 3 P M and surprised a battalion of the Seventy first regiment. Under a heavy fire from Briche the French simultaneously burst out from Fort St Denis, and a gunboat coming down the stream swept the banks clear of the German forces and landed a force at Epernay occupying the houses near the river and west of the village. The French were in overwhelming numbers. The Germans fell back fighting and evacuating the village. Reinforcements are arriving near St Gratien. The French then barricaded Epernay. The Germans sent the whole of the Fifteenth Brigade the Seventy first and Thirty first regiments six battalions in all to take the village. This force advanced very rapidly and the French were driven out in two hours. The Germans lost one hundred men and thirteen officers.

DRESDEN, Dec 6.—The Saxon commander telegraphs to the King of Saxony that he retired behind the Marne. Further offensive movements of the besieged are improbable. The total Saxon loss is 75 officers and 2 100 men.

Bavaria invites the King of Prussia to assume the title of Emperor. The general assent of the other States is expected.

It is said the Pacha is prepared with ... a few days to arm 100 000 men with breech loaders.

BERLIN, Dec 6.—The *Cross Gazette* says the Chambers will probably be convoked on the 12th.

Capture of Orleans

BERLIN, Dec 6.—Queen Augusta has received the following dispatch:

VERSAILLES, Dec 4—Midnight.—After two days' battle, in which the Army of the Grand Duke of Mecklenburg was mainly engaged, Marstein's corps captured the St Jean railroad station and the suburbs of Orleans. Thirty guns and 1 000 prisoners were taken. The Prussian loss is moderate. Wrangell's division suffered most. The Prussians found nine cannon and much ammunition on the field before Amiens.

(Signed) WILHELM

French Report of Battles before Paris. Successes Claimed.

TOURS, Dec 5.—The Government has received by balloon, official reports, to the 4th of the progress and result of the movements made by Gen Ducrot against the Prussian lines of investment. All of Thursday was passed in burying the dead and succoring the wounded. On Friday morning the Prussians attacked with great force the French force at Champeny and in front of Villiers. After seven hours fighting the enemy failed to carry the positions of the French and retreated leaving their dead and wounded on the field. Their losses were fifteen to twenty thousand men. Gen Ducrot greatly distinguished himself in the battle of Friday. Gen Lacharere and Gen Renault are badly wounded. General Sorritts, in his report says the troops who attacked the French were Saxons and Wurtemburgers. Their numbers exceeded ten thousand. Their losses must have been extraordinary, for the next day they were so weakened that they suffered the French to cross the river unopposed. The successes of the French troops created the wildest enthusiasm in Paris.

French News

TOURS, Dec 5.—Dispatches from Gen Palladines announce his retreat completed in good order. He lost neither munitions nor provisions. A number of persons and most of the journals have removed from Tours. Government evinces no intention of leaving. A balloon landed with favorable news from Paris. The pigeons sent from Tours regularly arrive in Paris. Intense cold continues. The river is filled with floating ice.

Particulars of the Battle at Orleans

TOURS, Dec 6.—Reports of the battle near Orleans, show that the Prussians attacked different corps of the French army separately and in greater force thus repulsing the left wing of the army of the Loire, turning Orleans so that its evacuation was necessary.

Gambetta has issued a circular to the Prefects saying the situation of the army is good and heavy reinforcements are already arriving. French movements will soon be resumed. The opposition are attempting to circulate false rumors to discourage and demoralize, but you may confidently deny their assertions. Yesterday the right wing of the army of Loire had a successful engagement near Montane.

TOURS, Dec 5.—Gen Palladines retreated from Orleans with 200 000 men and 500 cannon. The Government wished him to remain, but gave way to his opinion. He fought afterwards to his utmost but was powerless. At 11 30 A M evacuation was demanded or bombardment would be opened. The victors had but little ammunition.

A private dispatch dated London 6th says the transmission of the President's Message and Boutwell's report, eastward, has just commenced. The cable lines will not be able to accommodate other business.

The telegraph lines connecting with Orleans gave out Sunday and the lines ... with Tours were cut by the Prussians on Monday afternoon.

Communication with Tours ... has been re-established.

The losses of the Germans are exaggerated.

LILLE, Dec ... Two ... appeared at ... yesterday and summoned the town to surrender.

There is great ... in Lille.

The Prussians have invaded the Department of the Meuse. All men from 15 to 40 are considered prisoners of war, and will be shot if they endeavor to leave. In spite of this great numbers escape. The people are aiding them to reach the French lines where they enlist.

Washburne's Secretary on the Situation at Paris

WASHINGTON CITY

Opening of Congress.

WASHINGTON, Dec 6.—The opening of the 3d session of the 41st Congress was witnessed by a great number of residents and visitors who crowded the galleries and corridors.

The House was called to order by Speaker Blaine.

Proceedings opened with prayer by the Chaplain.

Roll of members was called and 175 answered to their names.

Sypher was sworn in as member from the 1st District of Louisiana and Dixon from 2d District of North Carolina.

Schenck and Platt are to have their credentials referred to the Committee on Elections.

Duke, member elect from Virginia took the oath.

The President's message was received and read by the Clerk. It was received with great applause.

The Treasurer's report was presented and referred to the Committee of Ways and Means.

The Senate was called to order at noon by the Vice President.

Nearly all the Senators were present.

Several bills were introduced and among them one by Cole and Casserly for the immediate repeal of the income tax law and forbidding the collection of any tax maturing after the first of January.

WASHINGTON, Dec 6.—Washburn of Wisconsin has received a letter from his brother the Minister to France in which he says the people of Paris have provisions enough to hold out till the 1st of January.

R R Butler of Tennessee will appear in the House to day and make a personal explanation, during which he will refer to the damaging charges which have been made against him in connection with Pension frauds, and demand an investigation by Congress.

The election of Gen Logan United States Senator from Illinois in place of Yates is regarded as certain.

Senator Sumner states that the object of his bill, introduced yesterday, was to prevent the further providing of United States currency in place of worn out notes. He believes this course will gradually contract the currency and bring about specie payments. The bill also provides for amending the funding law by increasing the 5 per cent. bonds from $200,000 000 to $500,000,000.

WASHINGTON, Dec 7.—House.—Among bills introduced, is one by Johnson to establish a port of delivery at Eureka, California also to return to certain settlers in California rights taken from them by act of Congress. Senator Cole introduced a bill to create the Southern Judicial District of California.

Summary of the President's Message

WASHINGTON, Dec 5.—The President's Message to the United States Senate and House of Representatives in Congress assembled opened by announcing a year of peace and prosperity as having passed since the last assembling of Congress. It is a comparatively brief document written in a clear business like way which presents at a glance a review of public affairs for the past year and the present situation of the country. The main facts stated are already familiar to the public through the papers.

In reference to the *Alabama* question the President says: "I regret to say that no conclusion has been reached for an adjustment of the claims against Great Britain growing out of the course adopted by that Government during the rebellion. The Cabinet of London, so far as its views have been expressed, does not appear to be willing to concede that her Majesty's government was guilty of neglect or did any act during the war by which the United States has any just cause of complaint. Our firm and unalterable convictions are directly the reverse. I therefore recommend to Congress to authorize the appointment of Commissioners to take proof of the amounts and ownership of vessels and their claims and that authority be given for a settlement of these claims by the United States, so that the government shall have ownership of all private claims, as well as responsible control of all demands against Great Britain, and whenever her Majesty's government shall entertain a desire for a full and friendly adjustment of the claims the United States government will enter upon their consideration with an earnest desire for a conclusion consistent with the honor and dignity of both nations."

The Treasury Report.

WASHINGTON, Dec 6.—The report of the Secretary of the Treasury says the financial condition of the country has improved during the past year. The average rate of gold for the year 1869, as shown by weekly sales was 132 per centum premium, and for the first eleven months of the year 1870 was 152 per centum premium and bearing an improvement in the value of paper currency of about 1½ per centum. The total reduction of the public debt from March 1 1869 to December 1 1870, was $191 134 7... The consequent reduction in interest is at the rate of over $10 000 000 per annum; total estimated receipts, $350 101 500. The surplus applicable to the payment of the principal of the public debt in addition to that at present made on that account through the sinking fund, is 10 776,650 returned into the Treasury. It may be anticipated that the total reduction of the public debt during the next fiscal year including payments on account of the sinking fund will be about $50 000 000. The prosperous condition of the country the Secretary says, is largely due to the revenue system inaugurated during the war and the policy cannot now be rashly abandoned, or suddenly and radically changed without great injury to business and labor, and serious consequences to the revenue.

Excluding redeposits, the amount of gold and silver deposited at the U S Mint and its branches during the last fiscal year was $ ... 408 ... The coinage for the year was $24 ... 010. The value of gold and silver bars stamped, was $ ... 48 502.

The Lesson of the Elections

[From the Cincinnati Gazette]

If such an anomaly as a rational Democrat exists, we may remark that no rational Democrat ... an extract from the elections of this year a calculation that the Democrats can carry the next Presidential election. They give no signs of a revolution. Nor can they derive any reasonable hope from differences in the Republican party, for the differences upon questions of political economy are but the healthy processes of the Republican party which keep it in progress, and as to any differences about men, if any one thing has been demonstrated by the history of the Republican party it is the fact that it does not depend on any one man, nor on any set of leaders. It is a republican organization, having the liberty and sturdy individual independence that belongs to republicanism, and deriving vigor from the exercise of these qualities.

It may be regarded as settled that no Democrat tainted with the unfaithful course of that party in the struggle for national preservation can be elected President next time, and that the party which carries this load can not elect a majority at the next Congressional election. That matter is virtually settled and the Republican party is left master of its own destinies and the Democratic party to seek out a new character that may bring it accessions ... The New York *World* recognizes this situation and in an article applying the lesson of the recent elections it tries to impress this fact upon the party at large. It holds up the New Democracy as the progressive Democracy, whose wisdom is proved by their success in carrying elections and it exhorts the Democracy of the country to follow their lead. It describes the Democracy elsewhere as a stagnant Democracy whose policy has brought and will continue to bring defeat. It states that the Democratic party has lost three successive elections by gross mismanagement and glaring mistakes, and that ... of these the judgment of the New York Democracy was overruled.

The specifications are that they were overruled by the rejection of Douglas at Charleston, by the damaging Vallandigham platform in 1864 and by forcing the nomination in 1868 upon Seymour, who thought the ... party rejected the nomination of Chief Justice Chase and by putting him on a platform of a man and policy against which he had recently delivered powerful arguments. The *World* says the wish of the New York Democracy was a candidate that would strengthen the party in Pennsylvania and Indiana in the October elections and that it was an ... movement that thrust the nomination on Seymour and put the party in the incongruous attitude of running an anti-greenback candidate on a greenback platform and associating an open advocate of Judge Chase on the same ticket with the author of a then recent letter in conflict with all Judge Chase's ideas.

In this confession of Democratic failures ... ... that Vallandigham who was in the ... Convention ... spokesman of the ... movement for Seymour ... that the ... of Judge Chase at that time was ... It is an impression that the ... was managing ... ... was the main engineer ... to ... has ... in some recent ... of Judge Chase's health ... that the West ... Democracy were looking to him for a candidate. We have now this statement that the leaders of the New York Democracy want ... Judge Chase and regard it as gross mismanagement that prevented him and the ... to show the necessity for nominating Judge Chase next time.

We perceive the force of these premises and of the conclusion. No man who carries the burden of the character of the Democratic party in the civil war can be elected. It is evident during this generation. The *World's* declaration is wise that the party cannot regain its ascendency in national affairs by attempting to extract nutriment from the husks and chaff of defunct controversies of a past era. But to say that the party has been defeated for a whole decade by gross mismanagement seems to us about as encouraging to future success as the explanation of ... defeats which attributes them to apathy and to dissensions. This only brings the question what caused the apathy and dissensions. And so the question arises what caused the mismanagement? And is the repetition of it in three Presidential conventions a sign of wisdom next time? May not a devout mind find in this the truth that when the gods desire to destroy folks they first deprive them of judgment?

For our part we have an abiding faith in the Democratic party's lack of political sagacity and we believe it will continue to repeat itself. It is something more than a mere mistake of strategy in a convention. There is beneath this a more profound blunder in totally misunderstanding the character of the American people. This was shown by the course of the leaders of the Northern Democracy in the secession war and by the contrary course of the mass of the people. For the Democratic leaders to place a mean estimate on the popular character is a blunder that is akin to a crime. It proves total incapacity for popular leadership. The blunder which ... led that the majority of the people of the North would submit to an appeal from the ballots to the bullets and to the dissolution of the nation has been continually repeated in detail by the Democratic leaders waiting for a popular reaction which should undo the work of national preservation.

What signs have they given of the capacity to retrieve this blunder? They have attempted no reformation of character. They are like the traveler who sat down to wait for the river to run by. They are waiting for the coming reaction. During the four years of war they were looking for a time when the soldiers would quit the army in disgust when desertion would destroy its ranks when no more recruits could be had and when the Democrats at home would be strong enough to raise and welcome the Confederate armies. Since the war they have been continually looking for a popular reaction against the burdens left by the rebellion. At any local change they sounded their horn of resurrection. And their attempts at election excitation were all by appeals to the instincts of knavery, and proposals to degrade the national honor.

All this is more than a blunder in campaign tactics. It is a total lack of comprehension of the people they assume to lead. It is worse than a blunder or a crime, it is incompetency. They are still waiting for the American people to fall so low that they will follow those who contemn patriotism and national honor.

The Democratic party of the North has had no leaders of capacity since the Southern leaders went into the rebellion. It has been as prostrate as another organization under absolute personal government which, as soon as its head was taken away fell into anarchy and split up into factions led by charlatans and which is incapable of generating capable leaders or of organizing for consistent action. And what capable leader can the New York Democracy offer?

It is confessed that the mismanagement of 1868 was in not taking a candidate from outside the party. This admits that the party character is the fatal thing. But the character remains the same. And is there any prospect of bringing the Democrats to an agreement upon Mr Chase in the next Convention? And if there were does the realization that the neglect to nominate him then was a blunder prove that it would be a success now?

We appreciate the confession that the Democratic aspect is hateful to the American people and the declaration that their greatest blunder was in not taking a candidate who had not a taint of the Democratic name, but we see no signs of conditions or of sagacity that promise a change or that the Democratic party will not continue to fulfill its destiny by serving as a foil to the Republican party.

Breech Loaders for the National Guard

[From the New York Times]

Ever since the close of the war the Government has been busy in preparing a supply of improved small arms for any future emergency. The appropriations for the purpose have not been large, but considerable progress has been made in getting the work done. In 1861 the supply of arms on hand was utterly inadequate to the demand and it became necessary to purchase from England, Belgium, and France, or wherever the desired weapons could be found. It is not likely, however that any future war will find us similarly unprepared. Last month the Government sold some 600 000 muskets, but it is safe to estimate that at least a million stand of serviceable small arms are still in reserve. Most of these are of course muzzle loaders but we could, at very short notice put 150 000 men in the field armed with as good if not better guns than those used by any army in the world. Additional troops could be supplied as fast as they were organized.

At the recent trial of breech-loading guns in St Louis the Springfield rifled musket, altered to a breech loader was pronounced second only to the Remington gun, and our army has already been supplied with these pieces. The work of altering muzzle into breech loaders is steadily but slowly going on at the Springfield Arsenal and at least one hundred thousand have already been thus converted. During the war the production of new guns at the above arsenal ranged as high as a thousand a day and as there is a good supply of the necessary tools prepared, a similar number of breech loaders could be readily turned out should they be required. As the army ... is to be reduced from its present strength ... to 30 000 by the first of next July there will be some five thousand extra breech loaders available from that source in addition to the reserve ... on hand.

It is very evident from these figures that the supply of breech-loaders is at present ample for ... the army ... and that ... improved arms can properly be made to the various States for distribution among the militia. During Gov Fenton's administration a State Board assembled in this city to decide upon the best arms for issue to the National Guard, but although its examination was very thorough no action was taken on the report of the Board from want of the necessary funds to carry out its recommendation. Several of our prominent city regiments however have taken the matter in hand and propose ... to supply themselves with breech loaders if they do not receive them from the State or General Government. The Seventh ... and Seventy ... have already taken steps toward ... their present muskets for breech loaders and will probably complete the arrangement before the ... of the present drill season. It is expected ... that the State will reimburse the regiments for the money thus expended but ... Clark and his brother officers deserve much commendation for their ... in supplying this ... their commands. It will take them ... time to perfect themselves in the new manual necessary for the altered pieces ... the sooner they receive them the better. It would be well if the ... Government ... of its surplus improved arms so that the National Guard ... supplied with exactly the same weapon ... we are glad to learn that in any event it will not be long before all the principal military organizations of this city are armed with better guns than either of the armies now contending together in Europe.

The Daily Oregonian.

THURSDAY MORNING DEC 8 1870

Haight Governor of California and Oregon

Mr [illegible] Brown of the Olympia *Standard* [illegible] quite appropriate the force of that [illegible] which [illegible] Grover of this State [illegible] approve the subsidy bill for the locks at Wallamet Falls and to veto the subsidy bill for the West Side railroad. Hence he says through the *Standard*

> The vetoed bill provided for [illegible] municipal credit of the city of Portland to the Wallamet Valley Railroad Company to the amount of three hundred thousand dollars. Just before this the Governor had approved a bill loaning a like amount to a private corporation, for the construction of locks at the falls of the Wallamet river. Now while we fully endorse the doctrine of Gov Haight's letter, we fail to see where the distinction between the two cases lies, in principle

Others also have failed to see the distinction. But the organ of this city which Gov Grover has subsidized with an appointment under the litigant bill, and with other sops can see it for it is in duty bound to accept the Governor's logic and to defend it. So it says

> In the case of the lock bill, an appropriation of two hundred thousand dollars was made out of the proceeds of the sales of the public lands given by the General Government to the State of Oregon for the purposes of internal improvements and of which the State was the custodian. This was constitutional

This statement is a tissue of unfounded assumptions. The public lands alluded to were given to the State for "a separate and irreducible school fund," in accordance with the petition of the people of Oregon. It was Constitutional was it to donate these lands to a private corporation though the Constitution *expressly* sets them apart for the public schools? We can hardly wonder that the Olympia *Standard* is unable to comprehend this feat of logic

Having given a reason to show why this violation of the Constitution for the purpose of robbing the school fund for the benefit of a corporation was perfectly constitutional, the litigant organ next proceeds to show why it was entirely unconstitutional for the people of Portland to take measures to advance the interests of the city by securing the construction of a needed railroad. First, as that paper says, the Constitution forbids any town city or county to raise money for any corporation. But it was not proposed to raise money for any corporation. The city simply proposed to contract with an individual to *perform* a certain work, and was to pay him in case he did it, and otherwise to give him nothing. Secondly, says the litigant organ, "*as stated in substance by Gov Haight,*" the Constitution forbids the taking of property from one citizen and giving it to another. Can this be so? Then they who are taking away money from the citizens of Oregon and giving it to citizen Thomas Patterson of the *Herald* for State printing are doing a very wrongful thing. On this theory the authorities of town, city, county or State cannot enter into a contract with parties for any purpose, because it is "taking money from one citizen and giving it to another." To contract with a person to build a railroad to run into the city would no more be the taking of property from one citizen and giving it to another than a contract with that same person or any one else to build a town hall, would be.

Gov Haight of California, it will be observed, is produced as an oracle on this subject. We owe much, undoubtedly, to the Governor of another State for his zeal in teaching us our duties and obligations under our own Constitution. But there are many people in Oregon who have an independent way of thinking, and who will prefer that Gov Haight should attend to the affairs of his own State, or at least not meddle with Oregon affairs. The *Herald* and Governor Grover, however, seem to be immensely pleased with the condescension of the California Governor, and his patronizing way, and to think that Oregon is most fortunate in receiving attention from so great a man. It is not often that one man rises to the eminent position of Governor of two States.

A dispatch from Washington says the preliminary report of the census is now printing, and will appear during the early part of the session of Congress. It will necessarily be confined to general statistics exhibiting the population by aggregates and by classes of each county in the United States from 1790 to 1870 inclusive. Somewhat over 2,300 counties will appear. The table of small civil sub divisions embraces over twenty thousand items. The volumes containing agricultural, manufacturing and social and miscellaneous statistics will be a readable report. The organization of the bureau has afforded an opportunity of applying the principle of competitive examination. Those who desired clerical appointments were sent before a commission and were required to answer a series of questions. The clerical force employed has been as large as possible with convenience, in the belief that the statistics furnished will lose much of their value unless they are presented to the country at the first day possible.

CONDEMNS THE LITIGANT BILL. In California they have a "litigant bill" similar to the one in our State. Perhaps it would be more accurate to say that the litigant law of Oregon was borrowed from California, to which State we now look for everything, Oregon having under a Democratic administration, no character and no individuality of her own. But in California many of the Democratic papers condemn the law. The Mendocino *Democrat* thus speaks of it

> Let each Democratic publisher resolve firmly and unequivocally, that he will give no aid or support to any nominee for Governor Senator, or Assemblyman who will not give a solemn assurance that he will advocate and vote for the repeal of the State Paper law the thing's done. It is due to some members of the late Legislature who voted for this bill to say that they did not see matters as they saw them afterwards else they would have been against it. Indeed had there been time to act, an effort might have been made to repeal the act at the last session. There can be no humiliation in candidates giving the assurance suggested, for their own sense of right will show the propriety of repeal. Will our cotemporaries take heed?

Mr A J Burnett, member of the legislature from Jackson county, who has seen fit to write a letter in response to the charge of bribery which Mr [illegible] has brought against him is unfortunate in every way. In that letter he made the following statement

> It was reported on this day, by Mr Wm Lair Hill an attorney at law from Portland, and a prominent Republican of good standing amongst gentlemen, for truth and veracity that on the night before J D Fay was in the Republican caucus

To this Mr Hill replies through the *Herald*, stating that the allegation is incorrect, that he reported nothing of the kind about Mr Fay. So Mr Burnett is at fault again. He had better possess his $2 000 in quiet and not rush into the newspapers. He is making a sad mess of it

The Pacific Railroads

The [illegible] of the Secretary of the [illegible] interesting facts relative to the [illegible] Railroads [illegible] the following is a summary

The subscriptions to the stock of the Union Pacific Railroad Company amount to $33,7[illegible] 060 of which $33,[illegible]62,300 has been paid. The financial condition of the road is as follows

Total receipts for the year ending June 30 [illegible] $8 [illegible]
Expenses [illegible]

Net earnings [illegible]

The entire cost of road at that time was $10[illegible] [illegible] The amount of funded debt of the company was $[illegible] [illegible] The consolidation articles of the Central Pacific Railroad has been filed in this Department. Stock to the amount of $48 400 100 has been subscribed and $48 [illegible]40 paid in. The statement is as follows

Receipts from [illegible] transportation of passengers and freight for year ending June 30 1870 $[illegible]
Expenses 3 [illegible]

Net earnings $[illegible] 00

The indebtedness of this company amounts to $67 079 730, of which $27 851 000 was to the United States. The stock subscription of the Central Branch of the Union Pacific Railroad is $1,000 000, of which $980 600 has been paid. The expenses on account of road and fixtures have been $3 [illegible]23 700. Stock of Kansas Pacific Railroad to the amount of $5 072,500 has been subscribed and paid in. The indebtedness of the company is $18 46[illegible] 350, of which $6 353 000 was to the United States. The cost of construction of [illegible] miles of the main line is estimated at $26 000,000. The initial point of the Atlantic and Pacific Railroad is near Springfield, Missouri. Fifty miles are now completed at a cost of $2 [illegible]60 840. The company has issued bonds secured by mortgage on its lands to the amount of three millions. The amount of stock of the Sioux City and Pacific Railroad subscribed, $1 [illegible] 0 000, of which $1 788 000 has been paid. The cost of the road was $4 644 420 and its indebtedness is $[illegible] At the close of the last fiscal year the amount of the subscribed stock of the Southern Pacific Railroad was $1 800 000 of which there was actually paid in $280 000. [illegible]10 miles have been explored at a cost of $401 750. It has contracted for the purchase of the San Francisco and San Jose Railroad for the sum of $2 770 000 in gold payment to be made and possession to be taken by the 31st of December next. The Northern Pacific Railroad has filed maps designating routes of road from the mouth of Montreal river, Wisconsin, to Sinnahoo, in the 45th parallel, Washington Territory. Instructions were thereupon issued for the withdrawal in Wisconsin, Minnesota and Oregon of the odd numbered sections of lands to which prior adverse rights had not attached within twenty miles, and in Washington Territory south of Seattle of such sections within forty miles on each side of the road. The attorneys of the Union Pacific Railroad Company's southern branch, now the Missouri Kansas and Texas Railroad Company, the Kansas and Washoe Valley Railroad Company, and the Leavenworth, Lawrence and Fort Gibson Railroad Company were fully heard in the right of their respective companies to construct a railroad from the southern boundary of Kansas through the Indian territory. The objections of the representatives of certain Indian tribes, through whose lands the projected lines of road would pass, were also considered. After a most careful examination the conclusion was reached that the existing laws and treaties authorized the construction of such a road but on certain conditions which neither company had then performed. On a subsequent hearing it was shown that the first named company had completed its road to the designated point on that boundary, and it was decided that it was entitled to extend its line through said territory

Bret Harte

A San Francisco correspondent gives the *Topeka Record* some facts as to Bret Harte, which are interesting. He was born in Albany in 1837 his father being a Professor in the Albany Female Seminary. Early orphaned, he went to California at 17, but failed to succeed in school teaching and mining both of which he tried

> After various adventures he became a compositor in a newspaper office at Eureka. Here he used to surreptitiously contribute to the paper, transferring his essays from his mind to his composing stick, without the intervention of pen and ink, and crediting them to "exchanges." They attracted notice from the first, but it was some time before the authorship was discovered. He refused a situation in the editorial room, wishing first to master the mechanical part of the business, but he once took charge of the paper for six weeks, during his employer's absence, composing his editorials mentally, and setting them up at once in type. Having narrowly escaped mobbing, because he denounced an indiscriminate massacre of Indians by the whites, he returned to San Francisco, and became a compositor in the office of the *Golden Era*, until his literary abilities were discovered and he was promoted to the editorial department. He held several government positions, and was concerned in the management of the *Californian* a weekly paper started by Charles H Webb. It was with the foundation, however, of the *Overland Monthly*, in July, 1868, that his real celebrity began

A Dilemma

[From the Boston Advertiser]

We have no wish to degrade a great subject, but the probability of an Anglo Russian war excites in us the liveliest anxiety for the fate of the Democratic party. On the outbreak of the present war the organs of that organization hastened to plant themselves on what they supposed would be the popular side and warmly espoused the cause of France. In their superserviceable zeal, they performed prodigies of military skill vanquishing the feeble Prussians every day and with a careful regard for consistency distributing their "sympathy" impartially on the empire and on the revolution which overthrew the Empire. But all this labor brought very little reward for victory public sentiment and justice combined in support of the miserable Germans. There was one bright oasis on this vast desert of disappointed hopes. The Irish favored France for the lofty and logical reason that the English favored Prussia. This slender straw the drowning party eagerly caught at and have since been struggling to keep themselves by its aid, above water. Now it seems probable that there will be another war in which England will be practically the ally of France. Of course Ireland cannot longer sympathize with France but in order to oppose England she must swing around boldly to the side of Prussia. It will be seen therefore, that the Democratic papers are reduced to a very awkward alternative. They must continue to win victories for the French and sacrifice the support of the Irish element or they must eat their own words in order to retain that support. The situation is very unfortunate but we hope that our Democratic cotemporaries will not lose their temper. The moral for them to study is that it is always best to follow truth [illegible] in choosing [illegible] and that it is more honorable as well as more [illegible] to agree with an adversary when he is right than to place one's self in the wrong in order to disagree with him

STRIKING FOR THE TERMINUS. The Olympia *Tribune* of the 31 inst has the following

To the property holders of Olympia and vicinity greeting. Hon J Gregory Smith President of the Northern Pacific Railroad Company writes that he is waiting to hear from you. He is desirous of knowing what inducements you have to offer in consideration of a terminus at Olympia

Mr B F Brown proprietor of West Olympia two weeks ago received a letter from J Gregory Smith in which the latter acknowledges the receipt of title bonds from Brown French and others and invites further proposals from property holders in this vicinity if any are contemplated. Mr Smith states that on receiving the reports of the engineers now in the field the Company will proceed at once to locate their terminus for the Pacific coast

Now what are you going to do about it? If you design doing anything it is time you give some intimation of such design. Brown French and one or two others cannot secure the terminus without the co-operation of the hundred and one property holders, large and small in their neighborhood. The time for action has arrived. Delay until Nisqually or some other point is selected and it will be instructive to see how rapidly property in Olympia will depreciate as the locomotive goes rushing by

Some of the Effects of the War upon Trade

[From the New York Herald]

Recent returns of the British Board of Trade reveal some curious effects of the war upon trade. Of these the most important is the effect which the war has had upon the carrying trade. In August and September 1869, 752 vessels, of 196 419 tons, entered British ports under the German flag. In August and September 1870 there entered the same ports under the German flag only 1[illegible] vessels of 36 953. In August and September 1869 there cleared from British ports under the German flag 1 176 vessels with 261 892 tons. In 1870 these figures were reduced to 111 vessels with 2[illegible] tons. The carrying trade of Germany is in fact practically annihilated. In spite of all the disasters which have befallen France the French mercantile marine has enjoyed exceptional prosperity. In August and September 1869 416 French vessels entered British ports, with 40 372 tons. In 1870 for the same period, the vessels were 405, the tons 50,782. In that period in 1869 668 vessels with 78,832 tons, cleared from British ports for France. In 1870 the number had risen to 862 the burden to 100 7[illegible]8 tons. Prussia, weak in war ships has lost, France, strong in war ships has preserved her mercantile marine.

The same results are visible in the returns of the direct trade of Great Britain with the two countries. In August and September 1869 1 411 vessels, tonnage 229 406 arrived from French ports. In 1870 the number had declined to 1 351, but the tonnage had increased to 245 144. In 1869 British vessels leaving British ports for French ports numbered 2 172 the tonnage was 370 373. In 1870 the number of vessels was 2 194 and the tonnage 427,213. The direct trade of Great Britain with Germany reads the same lesson. In August and September 1869, there arrived in British ports and under the British flag from Germany 706 vessels, with 120 915 tons. In 1870 the numbers were reduced to 366 vessels, and the tonnage to 91 879. In 1869 1 622 vessels of 348 132 tons burden sailed from British ports for Germany. In 1870 the number was 296 the tonnage 80,116. The comparative decline in the direct trade between Great Britain and Germany is made up to Great Britain by the increased shipments which are made to Holland and Denmark, through which neutral Powers Germany is drawing her supplies. The vessels that cleared for Denmark in August and September, 1869 measured only 79 189 tons. In the present year the tonnage almost doubling itself, has risen to 153 411. The shipments to Holland for the same period measured in 1869 131,532 tons, against 199,709 tons in 1870. There are many lessons which may be drawn from these figures, but there is one lesson which we as a nation ought to learn, and learn at once. It is that a nation strong at sea may maintain her commerce unimpaired in war whereas a nation without a navy cannot go to war without directly sacrificing her commercial interests. Of the experience we have already had enough. But we have not been apt scholars

FREE TRADE IN SHIPS. The Washington correspondent of the New York *Journal of Commerce* writes as follows under date of the 21st instant

Mr William H Guion of the firm of Williams & Guion, Liverpool and Northwestern Steamship Company, had a long interview with the President on Friday, after adjournment of the Cabinet. Mr Guion's visit was merely to make a formal call while he was on his return to New York from Alabama for the purpose only of thanking the President for the [illegible] compliment to the Liverpool and Northwestern line of European steamers contained in the special message sent by the President to Congress the day of adjourning the last session. But the President showed a disposition to listen and ask questions in reference to our shipping interests. Mr Guion told him that arrangements were being perfected and that his line would soon be as fast and good as any other. They now have a contract for carrying the United States mails for two years. They want to change their registry and carry the American flag, but the laws of Congress forbid it. He spoke of the danger to our commerce that might result in fact be certain [illegible] if England whose vessels are now doing our trans-Atlantic carrying trade [illegible] by [illegible] extent was drawn into the prospective complications on the Black Sea question. That point was dwelt upon at some length and as the President fully appreciated and approved its force it is reasonable to expect that the views of the President as given in the special message of July last will be reiterated in his annual message to Congress especially as the experience of the Postmaster General with the German lines since the war broke out between France and Prussia has demonstrated the absolute necessity of allowing a change of registry for certain vessels. It is known conclusively here that the registry of many of the existing great Atlantic Ocean steamship lines would be changed [illegible] A [illegible] immediately upon the passage of an act of Congress authorizing the owners to do so. Mr Guion says his line will and he is of opinion that many others will also change their registry as soon as permitted. The question will probably come before Congress at the next session whether foreign built vessels may be allowed American registers, which [illegible] also carry with them the American flag. The debate will be fierce for it is known that the protectionists expect it and have been ever since Congress adjourned preparing tables of figures and points of argument on their side of the question

Ten or twelve full blooded Indians have applied for admission to Highland University, Kansas, with a view to entering the Presbyterian ministry

On the [illegible] March 1867, Congress approved [illegible] a gold medal to be presented to Cyrus W Field upon the completion of the Atlantic cable. The medal was [illegible] weighing some three [illegible] elaborately carved and mounted [illegible] in a pearl case mounted with [illegible] Secretary McCulloch who was Secretary of the Treasury received the medal from the [illegible] and sent it to President Johnson [illegible] Secretary. The medal was [illegible] after this, and on inquiry [illegible] Mr [illegible] stated that he had returned it to the Treasury Department, and it was [illegible] that the medal was stolen [illegible] Congress [illegible] another appropriation [illegible] [illegible] Department by President Johnson after he had viewed it, [illegible] gave it to Assistant [illegible] as [illegible] locked it up in his private [illegible] [illegible] appropriation made for a new one [illegible] his [illegible] until Saturday last when [illegible] of General Spinner [illegible] Mr Field [illegible] for the medal. Spinner was greatly astonished [illegible] the case [illegible] the medal until [illegible] disposition of it [illegible] Congress

SHIP BUILDING ON THE DELAWARE RIVER. Iron ship building is steadily advancing as a branch of American industry and Pennsylvania bids fair to grasp a good portion of the profits and advantages that will accrue. Mr John Roach the proprietor of the Morgan Iron Works and several other extensive establishments in New York and well known by his heavy Government contracts on Saturday closed a large purchase of Delaware river front land near Chester with the design of devoting it to iron ship building and kindred branches of enterprise. The great superiority of the Delaware for this purpose is [illegible] more and more apparent and this last [illegible] in from one of the heaviest ship builders of New York is but the first [illegible] capital [illegible] and stimulating great improvements in this vicinity. Mr Roach [illegible] ship building [illegible] of the Atlantic coast something like Captain Ward in the lakes and his name and capital are an accession to the industrial interests of the State which deserves more than passing notice. *United States Press*

EAST PORTLAND REAL ESTATE TRANSACTIONS. Saturday morning Mr A B Richardson sold at [illegible] seven lots in block 76, East Portland, as follows: To H H Oatman, lots 1 and 2, for [illegible] W C Raymond, lots 3 and 4, for $750, C F Weigand, lots 6 [illegible] and 8, for $950. At this point the sale was stopped for the present, though several lots in block 67 had been advertised. The price obtained was considered too low. Considering the fact that the terms were one third down and the balance in six and twelve months the buyers obtained good bargains. The other lots in block 67 will be sold next Saturday

CHARGE OF SEDUCTION.—A year or two ago, a young gentleman resident of Vancouver, as the story goes, had some intimacy with a young [illegible] widow of that place, who finally proved to have fallen into the category of "unfortunates," whereupon, under threats of prosecution, the young man left. Recently he returned from Ireland with a young wife. Upon his arrival at Vancouver in the early part of this week, he was arrested on the charge of seduction and on Tuesday he was held to answer and admitted to bail in the sum of $500

PILE DRIVING.—The pile driver which the O. & C Railroad Company used during the past [illegible] at various points along their road, was brought down the other day, and yesterday workmen were engaged in setting it up for use at the North Portland ferry landing. The grade from North Front street, down to the river's edge, is to be driven with piles upon which to found the railway and car landing

CHANGE OF VENUE IN THE BURCH CASE.—In our report of the proceedings of Tuesday in the case of the State vs Burch we said: "It is understood that neither party objects to the change of venue. This was incorrect, as the Prosecuting Attorney did object to the motion. We make the correction at the request of the counsel [illegible] the District Attorney

PERSONAL.—Capt. McNulty, whom all travelers up and down the Columbia know well, is making a visit of a few days in the city. This is his only visit here in something over four years, though he has made the trip almost daily during that time between the Dalles and Cascades. We trust the Captain's friends will make it jolly for him while he stays

THE UNITARIAN FAIR.—The ladies of the Unitarian church are making extensive preparations for their fair, which is to be held at the Washington Guards' Armory next Tuesday evening, the [illegible] inst. They have procured a fine lot of toys suitable for Christmas presents, or for presents at any period of the year

VERDICT.—In the U S Circuit Court on Tuesday the case of Norman vs Manciet was tried and submitted to the jury at the adjournment of the court and the verdict was not, therefore reported in the proceedings of that day. The finding of the jury was for the defendant

WEATHER.—Yesterday we had the first really winter weather of the season—high wind accompanied in the morning for two or three hours with rain and sleet. The wind and rain continued throughout the day rendering all out doors about as disagreeable as we often see it

A BIG DAY'S WORK.—On Tuesday the Oregon and California Railroad Company's saw mill No 1 cut the enormous quantity of 116 427 feet of lumber—railroad ties and planks. We doubt if another day's work can be shown by any mill on the coast

COUNCIL PROCEEDINGS.

REGULAR MEETING, DECEMBER 7, 1870.

Present—His Honor the Mayor presiding, and Councilmen Congle, Cree, Hallock, Hill and Moffett.

COMMUNICATION FROM THE MAYOR.

PORTLAND, Dec. 7, 1870.

To the Honorable the Common Council City of Portland—GENTLEMEN: A short time ago, when crimes were daily committed in our city, the Honorable the County Commissioners proposed to offer a reward of one thousand dollars for the arrest of the notorious Shultz, provided the city would pay two hundred dollars towards it. I promised that I would use my best endeavors to have your honorable body do so. The man Shultz having been arrested and the reward of one thousand dollars paid by the County Commissioners, I would respectfully recommend that the city repay to the county two hundred dollars.

Respectfully, &c.,
B. GOLDSMITH, Mayor.

The message was, on motion, referred to the Committe of Ways and Means.

PETITIONS.

From Henry Martin & Co. for the privilege of laying down plank pavement on Alder street in front of his store. Granted.

From R. A. Semple and others asking to have street grades established on Yamhill and Taylor streets between Twelfth street and the line of King's claim. Referred to the Committee on Streets and Public Property.

CLAIMS AGAINST THE CITY.

The following claims were presented and allowed: Levi Anderson, disbursements as administrator of the Raleigh estate, $7 50; H. L. Pittock, advertising, $13 74; D. C. Lewis, Police Judge, blanks for Police Court, $39 50; C. H. Myers, work upon street lamps, $24 54; J. H. Lappeus, board of city prisoners for November, $77; police force for November, $722 21. Police Commissioners for November, $60; A. Hamilton, for work on E street, $16 66. A bill from C. H. Myers, $1 75, for taking down and putting up gas pipe in Auditor's room, was ignored for the reason that it was thought all such work was covered by the contract with W. L. Higgins for removal of safe.

ORDINANCES.

An ordinance requiring a bond from the City Surveyor ($2,000)—read 1st and 2d time and laid over.

An ordinance, authorizing the Committee on Fire and Water to contract for the arching of the fire cistern at the intersection of Jefferson and First streets, read three times and passed.

An ordinance, adopting the report of reviewers of the proposed extension of North Sixth streets, read first and second times and laid over.

The ordinance, making an appropriation out of the railroad fund [$71 12, to repay railroad taxes paid under protest], was taken up, read the third time, and the question being upon its passage, the yeas were Messrs. Breck, Cree, Hallock and Moffett; nays, Messrs. Congle and Hill. The ordinance failing to receive a constitutional majority was, therefore, lost.

Mr. Breck moved to reconsider the vote by which the ordinance was lost, which prevailed, and the ordinance was laid over till next week.

The council then adjourned.

THE COURTS

WEDNESDAY, December 7, 1870.

U. S. CIRCUIT COURT—DEADY, J.—The court met and adjourned to Monday, the 12th inst., without transacting any business.

U. S. DISTRICT COURT—DEADY, JUDGE.—Briscoe vs. Hinman; argument upon petition of defendant for remission of judgment. Shattuck for petitioner; Kelly, contra. The court adjourned to Monday, the 12th inst.

CIRCUIT COURT—UPTON, JUDGE.—State of Oregon vs Louis Levy; assault and battery; appeal from justice's court; dismissed at plaintiff's cost, on motion of District Attorney, for the reason that the injured party, without whom a conviction cannot be had, cannot be found.

State of Oregon vs J. C. Johnson; robbery; motion for a new trial granted; defendant withdrew plea of "not guilty," and pleaded "guilty of petit larceny," and consenting to now receive sentence, was sentenced to imprisonment in the county jail for two months and to pay the costs of prosecution.

Charles Hodge, juror, was excused till Friday.

State of Oregon vs Charles Brandt; obtaining money under false pretenses; verdict of jury, "not guilty."

State of Oregon vs Wm. Ryan; tried yesterday for larceny; the jury being unable to agree, was discharged; cause dismissed on motion of District Attorney.

State of Oregon vs Geo. Bargman; robbery; defendant moved for change of venue; denied.

State of Oregon vs Geo. Bargman; assault with intent to kill; same proceedings as in the first case.

State of Oregon vs Charles Burch; motion for change of venue denied, and the second trial set for Friday morning.

All jurors in attendance excused till next Monday morning.

The court adjourned till Friday, 9th inst, at 9 o'clock A. M.

COUNTY COURT—HAMILTON, JUDGE.—*In Law*—Godchaux, Bros. & Co. vs. P. & L. Levin; judgment against the defendants for want of answer, in the sum of $300 25.

In Probate—In the matter of the guardianship of W T. Coleman and E W. Coleman; final report of D. C. Coleman, Guardian, continued till next term.

In the matter of the petition of Ann O'Brien to adopt Clement Laport, a minor child, it was ordered that publication be made of the petition.

In the matter of the guardianship of the Robinson heirs; petition of J. C. Hawthorne for appointment of guardian, filed.

County Business—On showing, the assessment of Anna Abernethy was reduced (except for State tax purposes) $1,250.

In the same manner, the assessment of George Himes was reduced $3,000.

Warrants were ordered drawn in favor of Richard Busby, $4; C. Bills, Sheriff, for the arrest of Bargman, $750.

The Court adjourned till 10 A. M. to-morrow.

Husbands, would you know how to please your wives?
Buy silver spoons and forks and butter knives;
Also, plate, to adorn your table,
And all such things, if you are able.
These things at Bronk's you'll always see
As good and cheap as goods can be.

December is here, with her storms and her rain,
And it makes the folks of cold weather complain
Hark ye, dear gentlemen, this need not be so,
You can all be kept warm, for O'NEIL & CO.
Can fit you so nicely, so snug and so warm,
With CLOTHES that are proof 'gainst the bitterest storm,
And they sell them so cheaply, that all who go there,
Unlike Flora McFlimsey, can find something to wear.

If you wish to buy or rent Farms or City Property call on PARRISH & ATKINSON, Corner of Front and Alder streets, Portland, Oregon.

The Summer is past and Autumn is here,
The finest season throughout the whole year,
But the days grow cool, and all must prepare
For warmer Clothing in Winter to wear
Well, KOHN & FISHEL, of Clothing renown,
Have the best supply ever brought to town.
They have all sorts of coats and pants that will match,
That will last a whole year and not need a patch,
There are socks, vests and shirts and a thousand things more,
Which they offer you cheaper than ever before.
You all need the clothes and they need the tin,
Then get a new suit and let Winter go in.

Many suffer rather than take nauseous medicine. All such, who suffer from coughs, colds, irritation of the bronchial tubes, and tendency to Consumption, have in DR. WISTAR'S BALSAM OF WILD CHERRY a remedy as agreeable to the palate as effectual in removing disease.

IMPORTANT TO SUFFERERS FROM NERVOUS EXCITEMENT—A gentleman residing in Grammercy Place, New York, (whose name it would not be proper to mention,) was suffering terribly about three weeks ago from the effects of dissipation. He could not sleep, vomited frequently, was tormented by horrible fancies, and could not keep a limb still. Opiates made him worse. While in this condition he was visited by a friend, who advised him to try PLANTATION BITTERS as an anodyne, stomachic and tonic. "No use," said the sick man despondingly, "nothing will save me. I'm a gone case." "Pshaw!" said his friend, "you're worth forty dead men yet. I'm going to be your doctor now." So saying, he put on his hat and going to the nearest druggist's, presently returned with a bottle of the Bitters of which he administered a dose forthwith. It had a soothing, cheering, tranquilizing effect and in a week he was restored to perfect health. This information is furnished by A. T. Minthrom, of Morrisania, who will confirm it if addressed by mail.

WHAT IS QUILLAYA SAPONARIA!—It is a tree, the bark of a Chilian Tree, which yields, when macerated, a fragrant vegetable soap with cleaning and antiputrescent properties not possessed by any other vegetable production. This bark is a prominent constituent of the celebrated SOZODONT, the most popular dental preparation ever introduced into America.

System run Down.

Persons often allow their systems to "run down," or rather *run them down*, by over-work, accompanied by a neglect of the proper means of invigoration. The result is what is called "GENERAL DEBILITY;" in other words, a failure and partial collapse of the physical forces, accompanied, usually, by great depression of spirits.

The best remedy in such cases is Hostetter's Stomach Bitters. Whether the state of exhaustion has been brought on by excessive physical labor, dissipation, anxiety of mind, exposure, or any other cause, the remedial effect of this great stomachic will be found equally prompt and certain. As a restorative, after severe sickness has prostrated the bodily and mental energies, it is pronounced, by competent medical authority, "THE BEST TONIC IN USE." If men were not ... lably careless about their health, and over confident in themselves, they would always, when engaged in any work that required great exertion, use corresponding means of sustaining their strength. For this purpose Hostetters Bitters are invaluable. All toilers should use them as an invigorant.

For those constantly employed in indoor occupations, especially in crowded workshops, they may be reckoned as the very best safeguard of health. Where there is a predisposition to constipation, or a tendency to biliousness, they may be truly said to be a specific for which there is no substitute.

THE GREAT
BLOOD PURIFIER.

An Infallible BLOOD PURIFIER, possessing rare TONIC and NERVINE properties—a certain cure for RHEUMATISM, GOUT, NEURALGIA, and all kindred Diseases.

It completely restores the system when impaired by disease, revives the action of the KIDNEYS and GENITAL ORGANS, radically cures SCROFULA, SALT RHEUM, and all ERUPTIVE and CUTANEOUS Diseases, gives immediate and permanent relief in DYSPEPSIA, ERYSIPELAS, Tumors, Boils, Scald Head, Ulcers and Sores, eradicates from the system all traces of Mercurial Disease.

It is PURELY VEGETABLE, being made from an herb found indigenous in California. It is therefore peculiarly suitable for use by Females and Children, as a BLOOD PURIFIER and RENOVATOR.

$3 WATCH! $3 WATCH!
THE GREAT EUROPEAN
EUREKA ALUMINUM GOLD WATCH COMPANY
Have appointed
J. F. WILLIAMS & CO., Jewelers,
561 Broadway, New York,
SOLE AGENTS FOR THE U. S.,

AND HAVE AUTHORIZED THEM TO SELL THEIR great EUREKA ALUMINUM GOLD WATCHES for Three Dollars, and to warrant each and every one to keep correct time for one year. This Watch we guarantee to be the best and cheapest time-keeper that is now in use in any part of the globe. The works are in double cases, Ladies' and Gents' size, and are beautifully chased. The cases are made of the metal now so widely known in Europe as Aluminum Gold. It has the *exact color of Gold*, which *it always retains*; it will stand the test of the strongest acids; no one can tell it from Gold only by weight, the Aluminum Gold being one-fourth lighter. The works are all made by machinery, the same as the well-known American Watch. We pack the Watch safely in a small box and send it by mail to any part of the United States on receipt of $3 50; fifty cents for packing and postage. A key is sent free with each Watch. Money should be sent by Postoffice Money Order or in a Registered Letter. Address all orders and communications to

Ordnance and Quartermasters' Accounts adjusted, and Certificates of Non-Indebtedness procured for discharged officers.

I also prosecute claims for Arrears of Pay and Do..., Prize Money, Commutations of Rations while prisoners of war, Indemnity for Lost Clothing, Restoration of Suspended Pensions, Duplicate Land Warrants, Land Patents and Treasury Certificates and all other classes of Government Claims

I will be pleased to correspond with those who are engaged or desire to engage in obtaining such claims and also other claims against the United States. I will send them all necessary forms and instructions, and keep them advised of all laws and decisions relating to claims, and my fees on such claims will be but one-half the fees charged claimants.

I refer to Members of Congress, Officers of the Government and others who have resided in Oregon or Washington during the last twenty years.

To Whom it may Concern:

CAUTION.

KNOW ALL MEN BY THESE PRESENTS THAT THOMAS & MAST, of the City of Springfield, county of Clarke and State of Ohio, do hereby appoint and constitute Messrs. KNAPP, BURRELL & CO., of Portland, Oregon, our *sole* and *exclusive Agents* for the sale of the "BUCKEYE GRAIN DRILL AND GRASS SEED SOWER," (Patented and Manufactured by us,) in and for the State of Oregon and the Territory of Washington, for the period of one year from the date hereof. And we hereby warn and forbid any other person or persons to sell any of said Drills, made under our patents, in said State and Territory, and any person or persons who may so sell to others any of said Drills, except they are purchased through the said Knapp, Burrell & Co., or their agents, will be fully dealt with according to law. Parties who wish to purchase will govern themselves accordingly, thus obviating all risks of liability in buying of parties who have no right to sell in the Territory aforesaid.

GRAINS OF GOLD

Wisdom—A man passes for a sage if he seeks for wisdom; if he thinks he has found it he is a fool.

A good conscience is better than two witnesses; it will consume your grief as the sun dissolves ice. It is a spring when you are thirsty; a staff when you are weary; a screen when the sun burns—a pillow in death.

Virtue rarely passes unrecognized by the world. A few distorted optics may fail to recognize her features, but it would be as easy to conceal the face of the noonday sun under a mask as her resplendent features.

True wealth consists in virtue, and not in the possession of great estate, and [illegible] consists in understanding and not in [illegible]. The wisest [illegible] is he who [illegible] duty for others.

The churlish man will necessarily think worse of human nature than it deserves. [illegible] there are some flowers which never [illegible] when the sun shines upon them, so there [illegible] many hearts whose good qualities must be drawn out by sympathy and kindness.

Pain itself is not without its alleviations. It may be violent and frequent, but is seldom both violent and long continued, and its pauses and intermissions become positive pleasures. It has the power of shedding a satisfaction over intervals of ease which few enjoyments exceed.

Mr Webster as a Literary Man.—Of all the public men of America Mr Webster was perhaps the most striking illustration of a purely literary power displayed on the theatre of politics. It has been said of him by so judicious and knowing a critic as Horatio Seymour of New York, that he would have achieved a great name in literature had he not chosen the career of a politician. His strength and that by which he distanced such competitors as Calhoun—was peculiarly one of literary effects, and it was displayed in the most striking and triumphant manner in those memorable debates on the Tariff and Nullification, which constituted perhaps the most brilliant passage in our political literature as well as an era in our public national history. The question has often been vexed between the partisans of Calhoun and Webster who had the better of the argument in those debates. But the real question of the matter goes deeper than its dialectics, and whatever may have been the logical accuracy and power of Mr Calhoun on the legal and constitutional issue, it is certain that the great Massachusetts orator completely overthrew him by the superior and more finished literature of his discourse. The comparison of the two debates on this high and famous occasion furnishes a very precise and happy illustration of the power contributed from purely literary sources in the discussion of even the abstrusest political questions. The issues between Union and Disunion was not decided by arguments, and indeed, it may be doubted whether any public question is ever entirely so determined. Sentimentalism as our statesmen are constantly discovering will do more to govern the opinion of the people than any amount of logic, and all that Mr Calhoun could make of syllogisms and lawyers pleas could, and in point of fact did, have no weight by Webster's grand appeal to the passions of the multitude, and his splendid perorations to the "glorious Union." Those perorations are remembered by the masses, are recited by the schoolboys, and have been the stock in trade of all lesser politicians on every occasion of arousing the patriotic emotions of the people long after the barren arguments of the South Carolinian have been forgotten, or survive only in a record consulted and annotated by lawyers and polemists.—*From the Old and New for Aug.*

Dr Gibbon's Dispensary,

623 KEARNEY STREET NEAR COMMERCIAL

Established in 1854 for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, [illegible] Syphilis in all its forms [illegible] Weakness, Impotency [illegible] years standing and Ulcerated Legs successfully treated.

DR GIBBON has the pleasure of [illegible] has returned [illegible] Kearney street, corner of Commercial, San Francisco [illegible]
[illegible]

Horrible Diseases.

How many thousands of persons both male and female are there who are suffering under a horrible existence from the effects of secret indulgences or from virus absorbed into the system. Look at their pallid cheeks and disfigured faces and their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation those sands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible destroying maladies, see that they are [illegible] and cured before it is too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years and who labors [illegible] the most inveterate cases without the use of any injurious drugs. It is important to those who are afflicted, or those who are interested in the welfare of their friends to be careful of the many pretended doctors who infest [illegible] publishing [illegible] in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry or you may fall into the hands of those charlatans.

Seminal Weakness

Seminal Emissions the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms unless combatted by scientific medical measures viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained shall apply immediately either in person or by letter and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr G will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage who are suffering under any of these fearful maladies should not forget the sacred responsibility resting upon them nor delay to obtain immediate relief.
DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr Gibbon stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions. By enclosing Ten Dollars coin in registered letter through the Postoffice or through Wells Fargo & Co. a package of medicine will be forwarded to any part of the Union.
All communications strictly confidential.

THE RIVERSIDE

HOMESTEAD ASSOCIATION!

OF

EAST PORTLAND, OREGON

IS NOW PREPARED TO RECEIVE SUBSCRIPTIONS to their Stock.
Application for ONE HUNDRED SHARES was made before the books were opened and a large number of shares have been taken.
The following extracts from the *Oregonian* and *Bulletin* will convey a good idea of the plan and workings of the Association, the location of the land, etc.

RIVERSIDE HOMESTEAD ASSOCIATION.

This association of whose organization we gave an account a few days since is now ready to dispose of shares. As it is with one exception (the [illegible] Portland Homestead Association) the pioneer of that kind in the city, it may be well enough to state what are its purposes, and the manner in which it is proposed to conduct its operations. The purposes of these Homestead Associations are not at all speculative in the ordinary sense of the word. They are dependent for the profits of their investment upon the natural advance in the value of their lands, consequent upon the co-operation of many individuals—shareholders—and the advance on values of all surrounding lands by reason of the increase of population and demand for room outside of, but still near the city. The "Riverside Homestead Association has a fraction over one hundred and twenty acres of land situated just south of Brooklyn on the east side of the river, the northern boundary line being about one mile from the ferry landing at East Portland. The tract lies in one strip along the Willamette river, half a mile in length, and another strip along the Oregon and California railroad, half a mile in length, the two strips being connected near the middle by two rows of blocks (with a street between) the whole forming a figure not unlike the letter H. It is divided into 74 blocks, 200 feet square, with streets running at right angles, and 30 fractional lots along the river front. The shares number 600, worth $60 per share. It will be seen that a share thus represents nearly a lot with an undivided interest in the 30 fractional lots. The fractional shares are to be sold for the benefit of the Association, [illegible] coming in for the proceeds in proportion to the number of shares held. When all shares are taken and the Association shall determine to do it, the choice of lots and blocks will be put up at auction to the highest bidder, the proceeds of such sales after deducting the original price of shares or lots, to be divided equally among the whole number of shares. Thus, if a person wants a particular lot or block, and is willing to pay $100 or $500 premium (more or less as the case may be) he pays it and takes the lot or block as his individual property, the premium being divided among the whole number of shareholders. It will be seen, therefore, that everything is co-operative, and all fair and mutual. No man can make a dollar out of the thing without also making a dollar for every other shareholder. There is no chance for loss, unless the property by some chance, should [illegible] far below the first actual costs, which is not likely to happen in the case of this, [illegible] tract of land must be judged by each for himself, but considering the steady and rapid advance on real estate in this city and vicinity, and at East Portland [illegible] last year or two, it [illegible] values to go back.

In the Riverside Association all [illegible] tions seem to have been taken to guard against monopolies of shares. No person is allowed to buy more than the number of shares [illegible] three blocks, or [illegible] determining the operations of the [illegible] restricted in the same manner. The buyers of shares may pay down $60 per share, which will exempt them from all assessments, or they may pay $15 quarterly with an [illegible] of $2 per share payable with the first installment, being liable in this latter case to another (and only one other) assessment of $5 per share. Upon the payment of the shares in full, with the [illegible] as above, the holder is entitled to his deed, and his proportion of all the profits derived from all sources. No officer of the Association receives any pay for services except the Secretary, who gets $25 per month so it will be seen that the expenses must be light.

That part of the tract lying along the river is a high plateau, nearly level, about 40 to 60 feet above the water. There is no part of the front row of blocks but commands a view of the river, Portland and the river for miles up and down stream. That part of the tract lying along the railroad is every foot of it, of the [illegible] soil and adapted to gardening purposes. A beautiful little stream of pure water runs through almost the entire length of this wing of the tract, affording the means of irrigation, and power sufficient to supply pure water to every part of the whole tract. There is not a waste lot or fractional lot in the entire tract. Under all these advantages it would seem impossible that there should be any chance of loss to shareholders. Within a year each shareholder, if he chooses, may get a perfect title to as many lots as his shares may represent or he may continue his interest, undivided with the Association while the organization may exist.—*Oregonian.*

THE RIVERSIDE HOMESTEAD ASSOCIATION

We have been led to make these remarks from the fact that the subject of making homesteads on the outskirts of this city and East Portland, is being thoroughly discussed here among all classes and one [illegible] Riverside [illegible] just south of East Portland has already been established. The site selected is a tract of land lying [illegible] a mile south of the ferry landing. It is shaped like the letter H one side of which, a half mile in length, [illegible] the river.
[illegible] portion of the homestead, which is elevated [illegible] the other prong of the H [illegible] fifty or [illegible] feet above the river [illegible] East Portland, the shipping, and [illegible] the Willamette [illegible] for several miles. The land is very fertile [illegible] covered with light fir timber [illegible] wide enough for two rows of blocks [illegible] an avenue between them connects the two prongs [illegible] as already been described) with the [illegible] last tract of land is in a beautiful little valley which is now under a high state of cultivation. Through its whole length runs a trout brook, the water [illegible] With a hydraulic ram the [illegible] proposes to have water conveyed through pipes to every [illegible] of the [illegible] —*Daily Bulletin.*
